## OO Sort

Concept-OO is a digraph that makes 2 sounds.

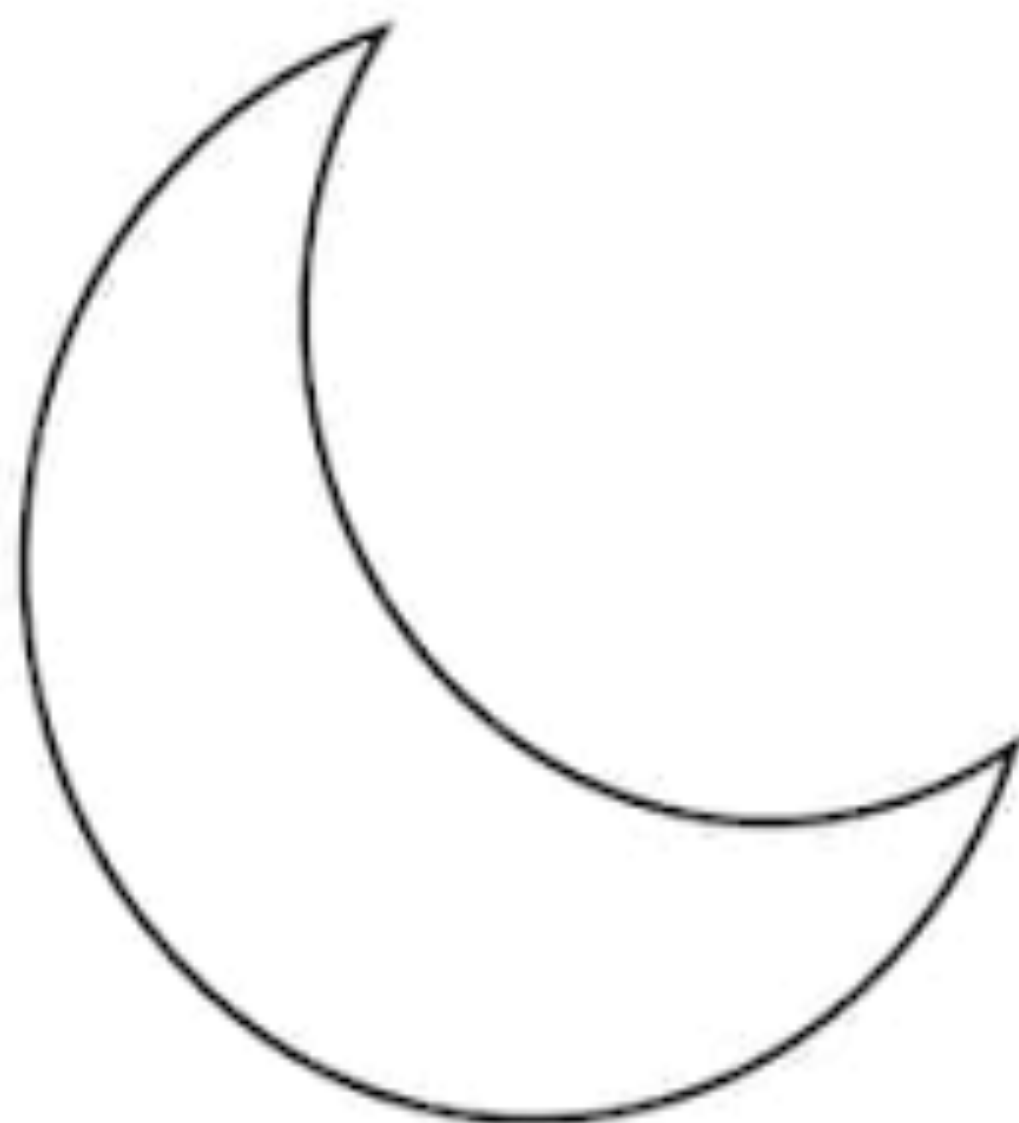

OO as in book.

OO as in moon.

Students will wear OO glasses and sort digraph OO words by the correct sound they hear when read and match them accordingly.

Materials- Word cards, picture of moon, picture of book, glasses.

How to play- Put on your OO glasses. 2 students will be given 8-10 cards each. Picture of a moon and a book are hung on board or desk. They will read and place the cards under the appropriate picture by their OO sound. You can make this a race to see who sorts their words first. This can also be played in teams. Whoever is sorting wears the OO glasses. Two students could also play My Pile Your Pile with just the cards and glasses.
